

Physical Therapy Education Program  
Directors External Feedback  
Questionnaire Results

10/14-11/12, 2015

49 Respondents

# I support the 15 recommendations from ACAPT's 2014 Clinical Education Summit and will allocate resources

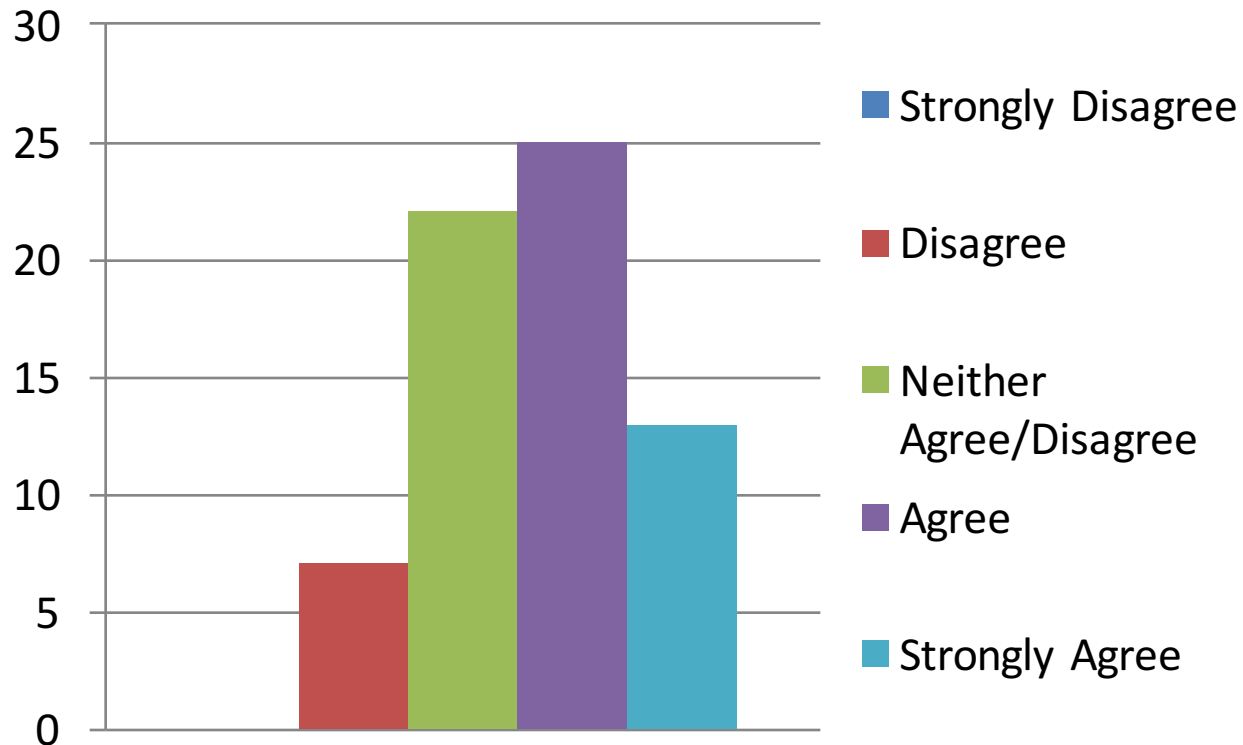

# Director of Clinical Education (DCE) External Feedback Questionnaire Results

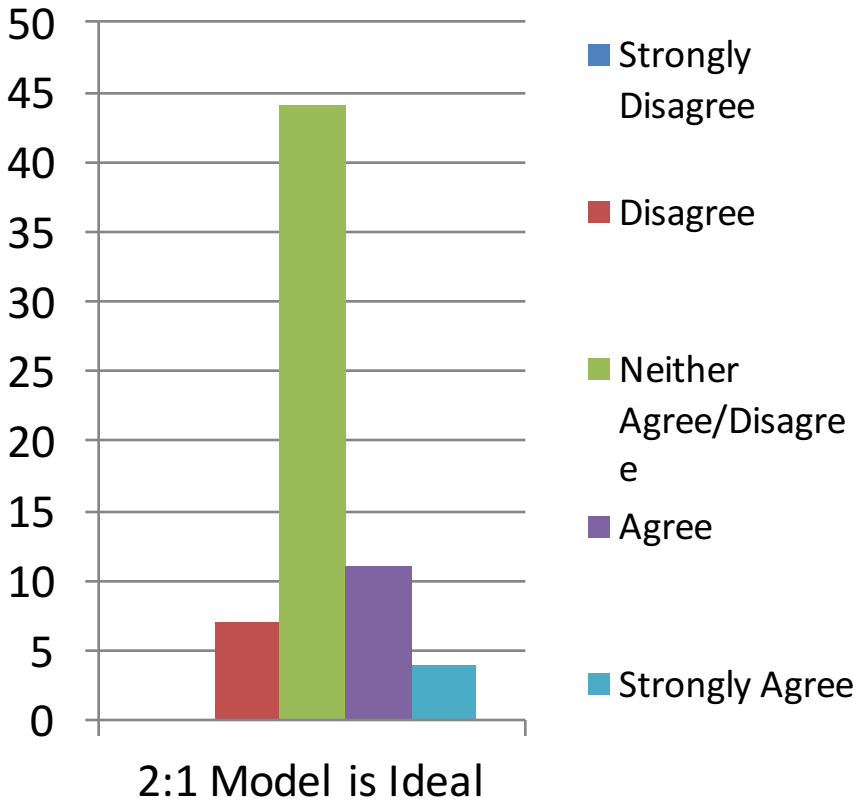

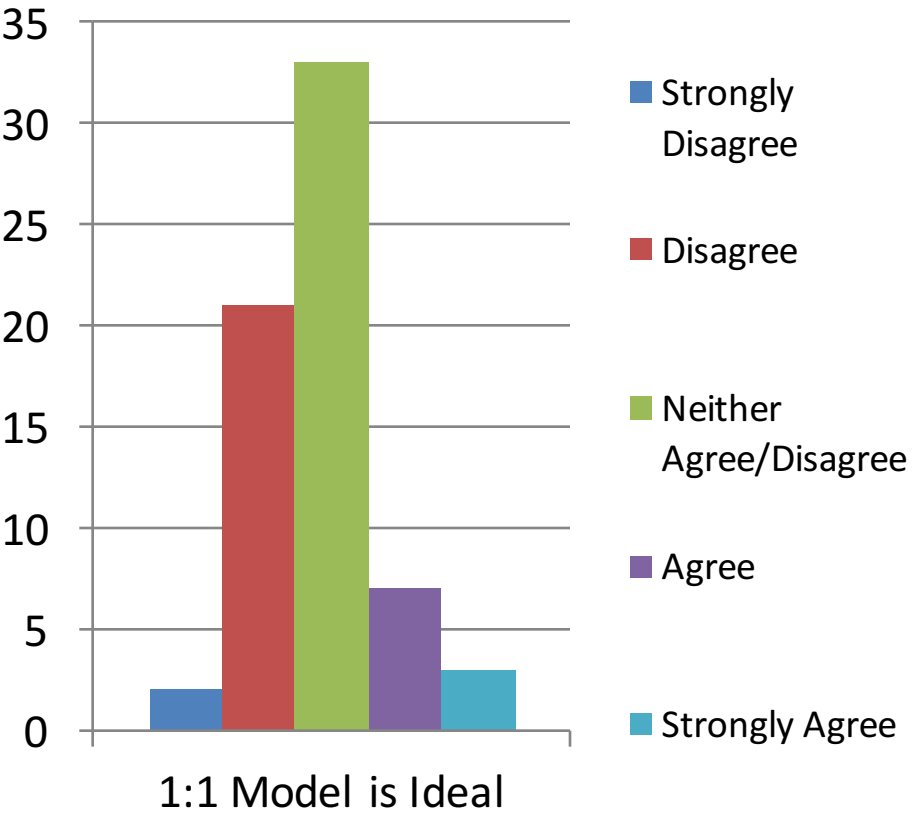

10/14-11/12, 2015

67 Respondents

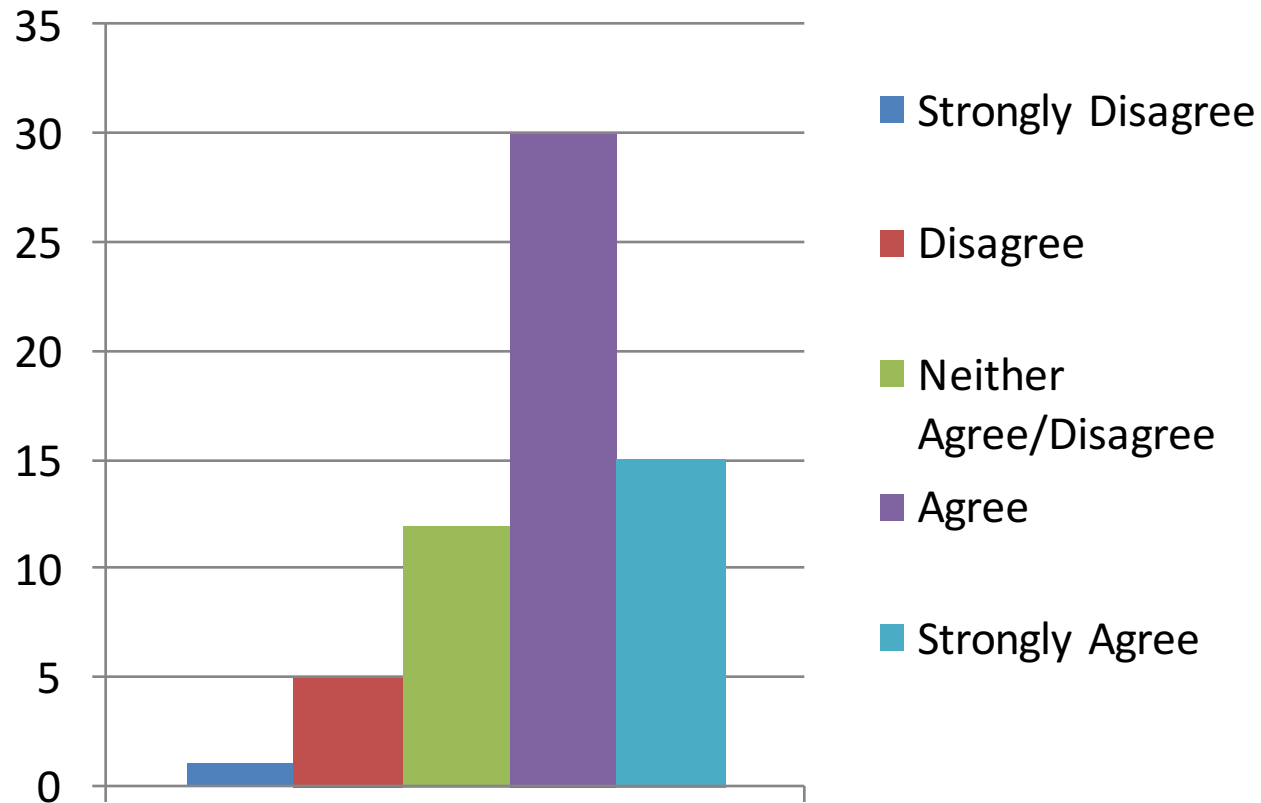

# An ideal clinical will have a structured curriculum that blends clinical experience and didactic lectures

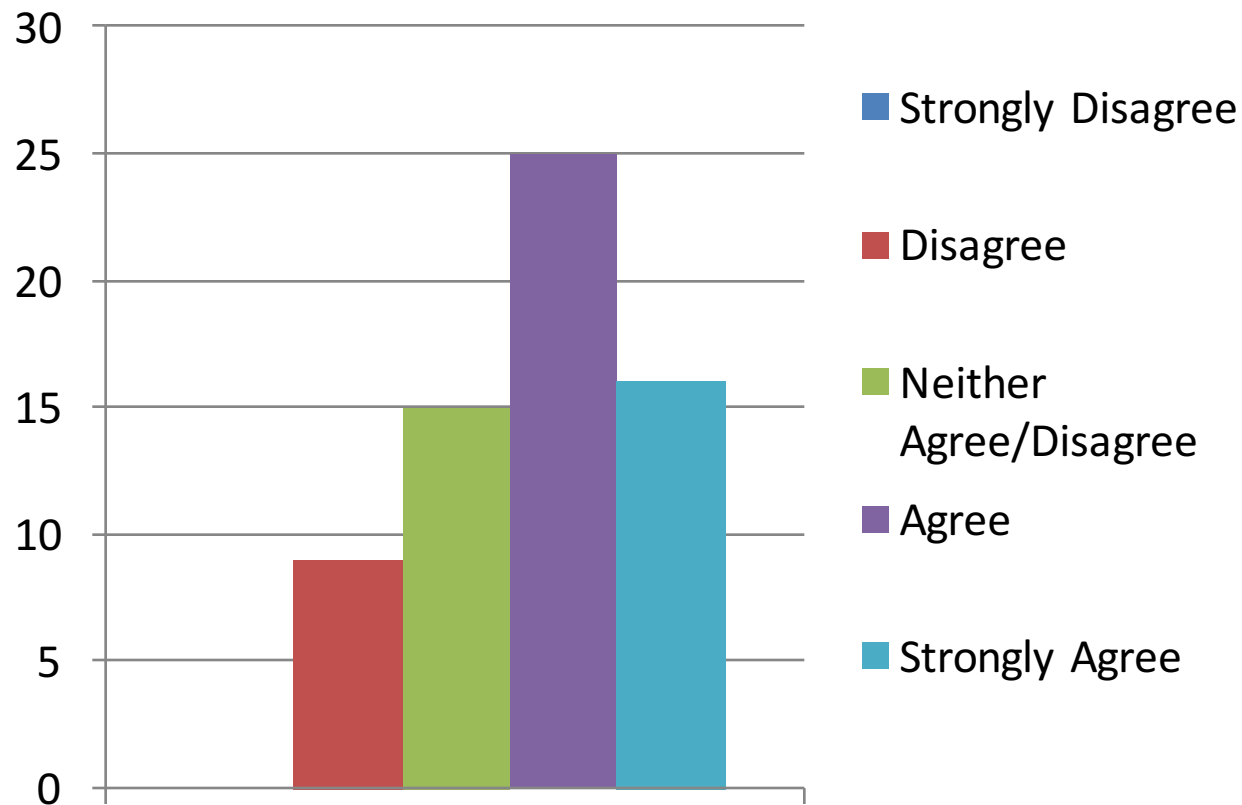

# Ideal Student to Clinical Instructor (CI) Ratio

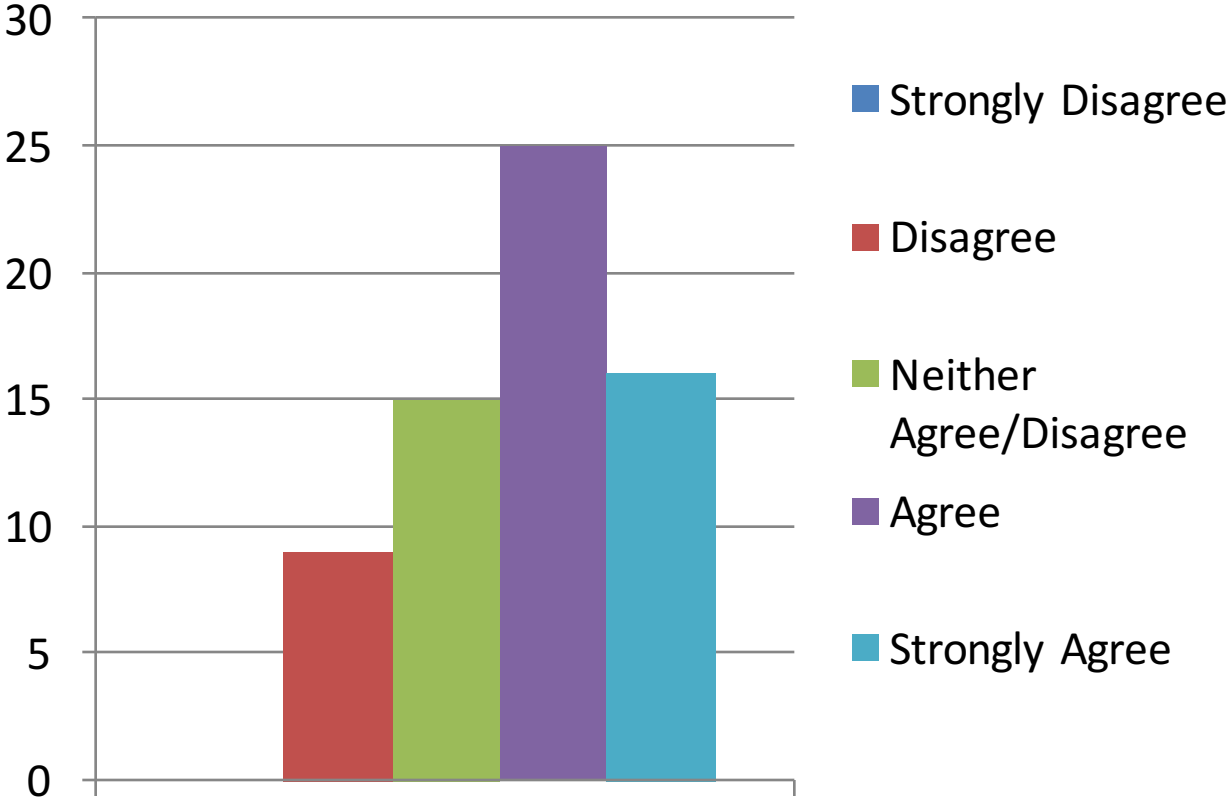

# The current model of clinical education is unsustainable and changes should be made

# Creating a regional core network between academic programs and clinical sites, like the VA, is the future of clinical education

# An ideal clinical affiliation will have at least one APTA Credentialed CI per site

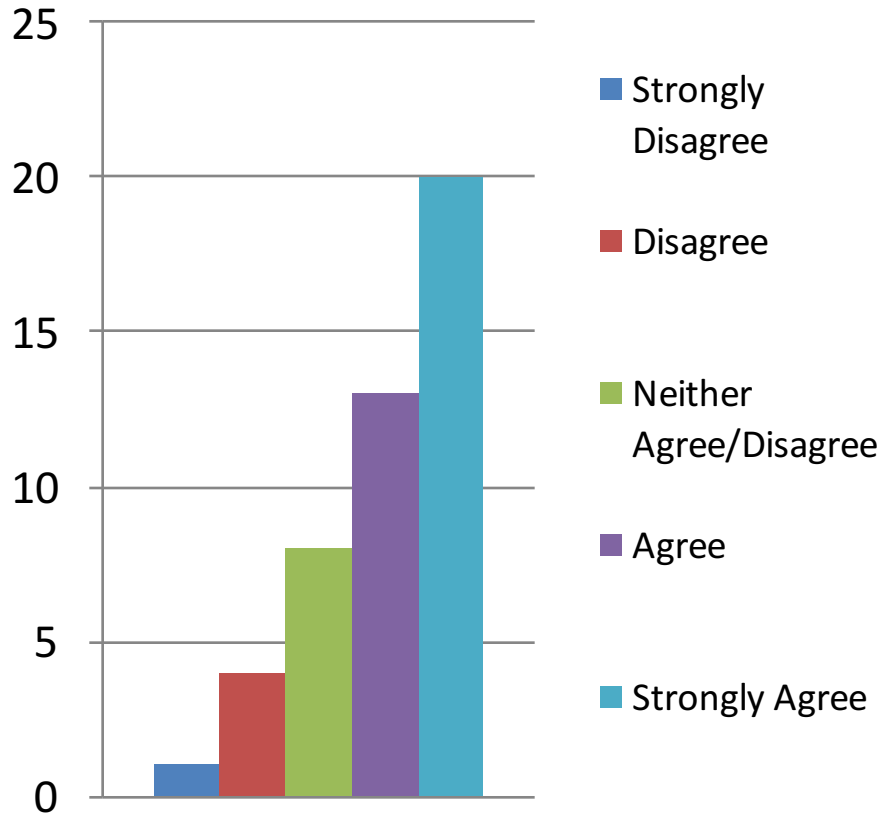

# Student External Feedback Questionnaire Results

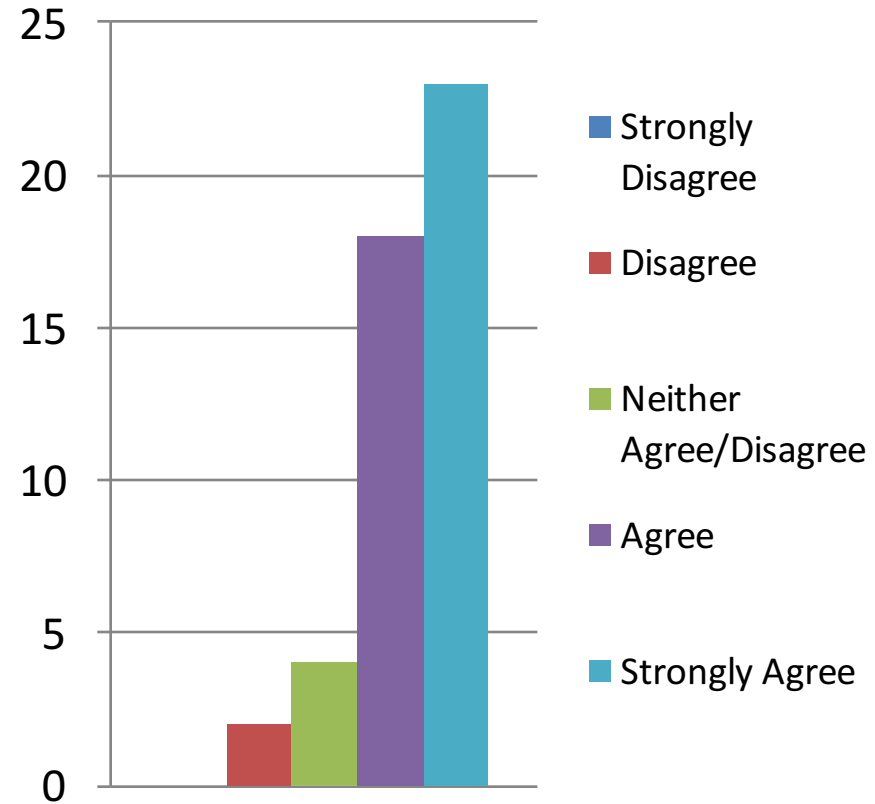

10/19-10/28, 2015

47 Respondents

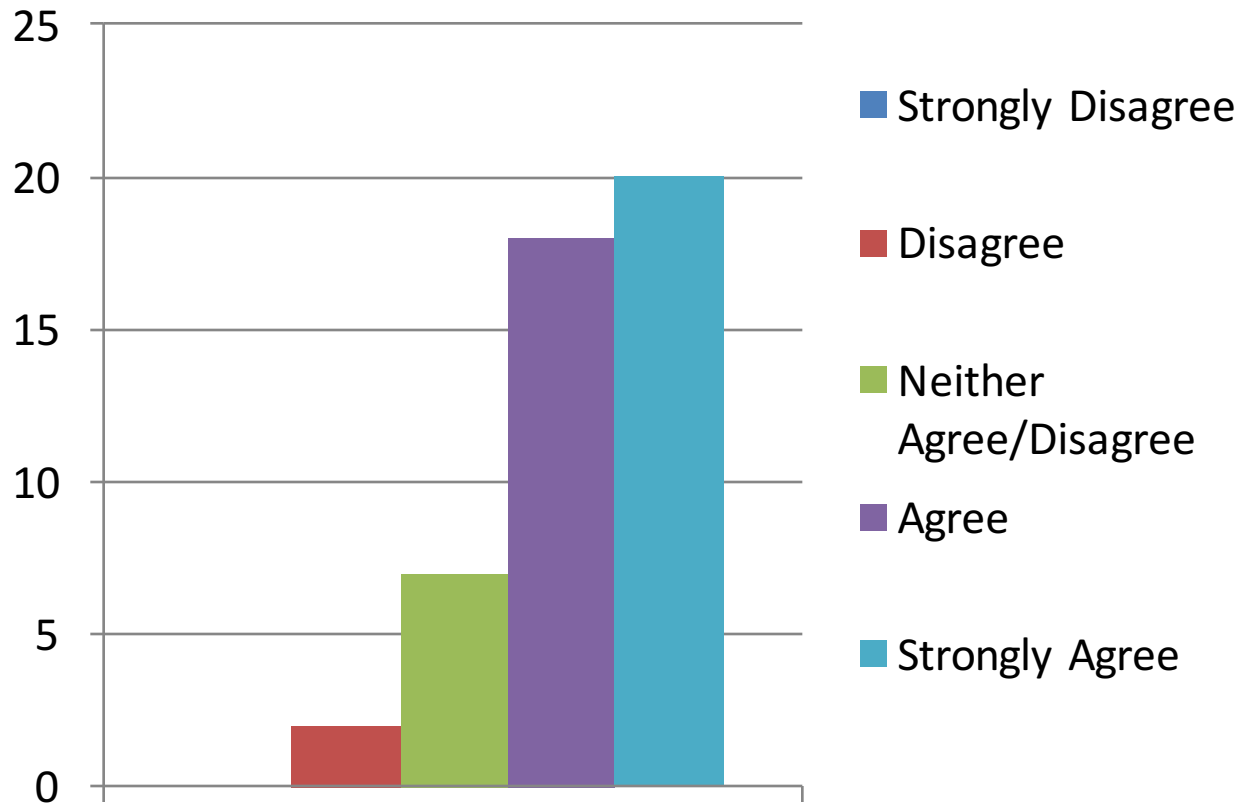

An ideal clinical affiliation would have one clinical instructor for each student

Rotating between clinical instructors is more ideal than having one clinical instructor for the whole rotation

# The clinical would provide in-services/seminars, built into the rotation to bridge theory and practice

# Lab time to practice skills and techniques would be built into the rotation
